Committee: Senate Committee On Energy and Environment

Measure, Appointment or Topic: SB726

I write in support of SB 726. Landfills pollute our air and environment, with limited regulatory oversight. New technologies deployed by 3rd party sources have uncovered the limitations and discrepancies with self-reporting and monitoring by landfill operators. Now is the time to require that emissions from landfills be monitored by 3rd party, neutral and reliable sources, using these available technologies.
