

Submitter: Joana Kirchhoff
On Behalf Of:
Committee: House Committee On Climate, Energy, and Environment
Measure, Appointment or Topic: HB2038

This bill is a waste of time and resources. There IS NO safe waste disposal system for nuclear waste. There is no facility existing, in process or even divised to store this waste for 24,000 years.

In this era of developing renewable energy sources any time and effort in the House is better spent developing energy sources for the increasing demand for energy in OR that will take the state off the grid and toward energy independence.

Thank you, Joana Kirchhoff
