Measure, Appointment or  
Topic: SB976

I oppose this measure as a horse owner of 30+ years. Over the years, I have had to have dental work provided by my veterinarian on several different horses for various reason from a float to tooth extraction. I would not want any of my horses to have dental work without anesthesia or to be administered pain medication after a procedure if needed. This bill would allow this to do so without putting the welfare of the horse first.
