Measure, Appointment or Topic: HB2977

I support the 1% for Wildlife bill because the diverse fish and animal species that call our state home are often a major reason for people to get out into nature, spend money in rural communities and stay to make Oregon their home. We are deep into an age of extinction and it is our imperative to do what we can to save as many species as possible. The solution proposed in this bill would make a significant impact for Oregon's wildlife and would be a minimal impact on the tourism industry and tourists themselves. Please pass HB 2977!
