

Submitter: Neal Hadley
On Behalf Of:
Committee: Senate Committee On Natural Resources and
Wildfire
Measure, Appointment or Topic: SB427

I support SB 427 because it affords the flexibility we need to smartly manage our water resources as we face the uncertainty of climate change. I am a life-long enthusiast about our surface waters and the groundwater that supports them; from fishing and swimming, to restoration of our often undervalued wetlands, to irrigation and domestic water use. We need to work toward sustainably managing water flows for the benefits to all those purposes to be continued. And let's not discount the needs of our natural world. The fresh water part of nature is a linchpin to the whole, and more vulnerable to our overuse. Please support SB 427 as a step in the right direction. Thank you.
