The beautiful Karastan Spice Market Keralam Spice Area Rug is a machine made weave

With all the stately prestige and timeless tradition of an heirloom quality Persian rug, the Keralam features lavish layers of ornate outlines and original artistry. Showcased in a Mediterranean inspired palette of warm spice, spiked with accents of tobacco, gold, sapphire, cream, charcoal, citron, garnet and aquamarine. Finished in Karastan's exclusive Everstrand fiber, the Keralam is consciously created from up to 100% post-consumer content derived from recycled plastic bottles. A premium polyester, Everstrand offers a thick, sumptuous softness, inherent stain resistance and vivid color clarity.

With style influences from across the globe, each design of this collection features original cultural inspired artistry, one-of-a-kind details and a rich palette of sultry Mediterranean derived hues and deep jewel tones. Consciously crafted of our exclusive Everstrand fiber, our premium polyester produced from up to 100% post-consumer content from plastic bottles, the rugs of the Spice Market Collection offer an irresistible soft touch, inherent stain resistance and vivid color clarity.

We think you'll love the [Karastan Spice Market Rug collection](#) as much as we do. All 60 of these gems have a personality of their own and paired with a complimentary color scheme, we think they will turn a mundane house into an inviting home.

Care Instructions: Rotate your rug periodically. Vacuuming is the best way to remove every-day dirt and dust. (Special care should be taken in the fringe area as vacuuming with a beater bar can catch and pull the fringe, causing separation). Professional cleaning recommended.

A note about rugs; Most rug images shown are 5x8 in size. Patterns may vary by size and designs are usually more elaborate in larger sizes. Colors in product images can vary depending on monitor settings. We suggest ordering a returnable swatch or small size if color or texture is a critical factor in your decision. Sizes are approximate and may vary by up to 4 inches.

**it is perfect**

It is perfect, delivered in tack, and is nice quality for a rug made of recycled plastic. I have a wool karastan, much finer detail. But for the price and where it is being used, it is perfect.
