

Submitter: Mary Martindale
On Behalf Of: Malheur Educational Service District
Committee: Senate Committee On Education
Measure, Appointment or Topic: SB322

I am a substitute teacher in the Vale and Nyssa School District. More professional development opportunities would be very much appreciated. I struggle with using the latest technology in the classroom especially using a "Smart Board and "Promethean Board". Other areas of interest include teaching math and writing effectively. I think it would be very beneficial if we had more knowledge of the curriculum and strategies that are used in our districts.
