

Submitter: Jon Sobotka

On Behalf Of:

Committee: Senate Committee On Energy and Environment

Measure, Appointment or Topic: SB726

I have been driving past the Coffin Butte Landfill for over 36 years. It has grown immensely, and it is foreboding. It has many severe and dangerous problems. Now is the time to solve one of them, the release of damaging Methane. Please, exceedingly please, pass this bill and help save the future for Corvallis, Benton County, Oregon, and everywhere else on the Planet. Thank You!
