

Submitter: Eduardo Melendrez
On Behalf Of: School Meals for All in Oregon
Committee: House Committee On Education
Measure, Appointment or Topic: HB3435

My name is Eddie Melendrez from Ontario Oregon and I support School Meals for All in Oregon. I believe no one should go hungry in Oregon. Specifically the children of our state. Our youth are the future of this great state and a nutritious meal is the first step to a child's successful future to succeeding in education and so on. This is an investment for a bright future of Oregon and every dollar invested into our youth will pay back by youth having good health, feeling supported, becoming future productive members of society, educators, business owners and more investing back into the community and economy. School Meals for All in Oregon is not only good opportunity for our state but is essential for a bright future for Oregon.
