Measure, Appointment or Topic: SB427

Dear Chair Golden, Vice Chair Nash, and Members of the Committee,

I strongly urge to to Support Senate Bill 427 to safeguard streamflows in water right transfers.

For far too long, an outdated loophole in Oregon law has allowed the Oregon Water Resources Department to approve applications for water right transfers without adequate consideration of whether the change will harm streamflows. Lower water levels in a stream can hurt fish, impair water quality, and decrease scenic and recreation values.

Senate Bill 427 safeguards our streams — and the fish, water quality, and scenic values they support — by ensuring voluntary water right changes won't further diminish streamflows. This narrow fix closes a dangerous loophole and brings modern environmental values into Oregon's outdated water right transfer review process.

I urge your support of SB 427 and the life-sustaining streamflows it will safeguard.

Your attention to this most urgent matter would be much appreciated by all present & future generations of all species.

Thank you
