

Submitter: REBECCA MERJA

On Behalf Of:

Committee: Senate Committee On Energy and Environment

Measure, Appointment or Topic: SB726

I FULLY SUPPORT SB 726.

As a neighbor of Coffin Butte Landfill in North Benton County, and a founding member of Valley Neighbors for Environmental Quality and Safety (VNEQS), I can't thank the legislators enough for sponsoring this bill. All landfills, especially in the Willamette Valley are huge methane emitters. New technology is readily available and should be applied frequently. Satellites and drones can monitor the whole site in a fraction of the time and more accurately than the handheld units.

Thank you!
