

Submitter: Robert Egner

On Behalf Of:

Committee: Senate Committee On Energy and Environment

Measure, Appointment or Topic: SB726

Im annoyed that this is something our legislators think important enough to make a bill?

We should be concerned with our high taxes, high crime rate, our failed medical system in our state. The failed VA. Our public education system that is ranked dead last in the nation.

But you people are worried about trapped gases from garbage. Honestly please get your priorities straight. What is wrong with you people?
