Committee: Senate Committee On Energy and Environment

Measure, Appointment or Topic: SB726

To the Senate Committee on Energy and Environment:

I oppose this bill for the mere fact that this is not a pressing issue. Your focus should be on energy and environment issues that will make our economy and Oregonians prosper. This is a very poor focus of your time right now when so many are under excessive tax burden, the homelessness and drug issues, our failing education system, and all the immediate and observable costs of living in this state. I expect better of my legislators. Vote NO.
