

Submitter: Hillary Tiefer
On Behalf Of:
Committee: Senate Committee On Natural Resources and
Wildfire
Measure, Appointment or Topic: SB427

Dear Senators,

Please support SB 427 that would require the state to consider whether water right changes ("transfers") would have negative impacts on streams and then prevent such harmful transfers. Any change in water rights should consider how it will impact streams and the environment generally so that the transfer does not cause harm. If we want to keep a beautiful Oregon, a state known for its natural beauty we need to protect it.

Sincerely,
Hillary Tiefer
