Measure, Appointment or Topic: SB15

1 100% SUPPORT this bill. As a daughter who lost her father in July, I am seeing the stress my mother is going through with the tax burden as she navigates their 2 homes and weighs her options on how to handle the sale(s). Something they built together and had planned enjoying for years, was cut short and now looking at losing much of it due to tax implications. a widow or family member shouldn't have such a burden on top of the grief of loss. Our estate and inheritance taxes needs to be overhauled, and this a good start.
