Re: HB 3644

The residents of Oregon are being taxed to death with little input from those of us paying the bill.

Every year the super majority democrats of our state bring thousands of new bills for review. How are we able to keep up with this level of power abuse? We can't even read the number of bills they bring.

The solutions of this legislature always seem to be no need to fix anything just throw more money at them.

We know that any bill passed with money going to the general fund is available to be spent as they want and we need to see accountability of this money.

The spending needs to be reigned in and I oppose this bill.
