

Submitter: William A Obrien

On Behalf Of:

Committee: Senate Committee On Natural Resources and
Wildfire

Measure, Appointment or
Topic: SB427

SB 427 passage is an attempt to better manage our existing streams and watersheds particularly in eastern and southern Oregon.. Better management means for wildlife and spawning salmon and steelhead to have better opportunities exist and go thru their life cycle. For farmers and ranchers better water distribution means cattle and crops grown will have water available for them. Residents of eastern and southern Oregon will have adequate drinking water as well as water to fight wildfires in the summer and fall. A win win for everyone!!!
