

Submitter: Estella Casto

On Behalf Of:

Committee: House Committee On Emergency Management, General
Government, and Veterans

Measure, Appointment or Topic: HB3450

I live in North Portland where all of us will be profoundly impacted should disaster occur in the CEI hub. Every time I walk or drive by the hub, I can't help but think about what a danger it poses to us and to the river. And earthquakes are not the only potential problem: wildfire, train derailment and spills are all less dramatic but potentially lethal hazards. We can't pretend that problems with the CEI hub can be postponed. I urge you and the other legislators to act now to protect us, wildlife, the river and forest, and the energy security of the state. Please support this bill as well as the risk bond legislation.
