On Behalf Of: William Wilson
Committee: House Committee On Judiciary
Measure, Appointment or Topic: HB3095

Equal parenting time is in the best interest of the child. I believe we owe it to children to allow this bill into law automatically making equal shared custody in Oregon, eliminating child support when the bill passes. Both parents being responsible for the care and needs of the child while in their custody. Current custody agreements should be reviewed and modified. Children rely on both parents for love and support and parents should strive to instill the best of themselves in their child. I am supporting HB3095 wholeheartedly

Thank you
