On Behalf Of:

Committee: House Committee On Emergency Management, General Government, and Veterans

Measure, Appointment or Topic: HB2152

Please pass HB2152, the entire State needs this to happen.

Storing 90% of the fuel for the entire state, including fuel for emergency vehicles and other emergency uses is extremely foolish. Putting all your eggs in one basket, and then putting that basket in the worst possible place is about as short sighted as it gets.

Does anyone still think it's a good idea to store these fuels on a liquefaction zone when we know we are overdue for a major earthquake?

It is important that when the fuels are moved that they are not moved to vulnerable communities.

We need to move these fuels off the the CEI hub as soon as possible, the entire State of Oregon is at risk here.

Thank you

Lynn Spitaleri Handlin
