

Submitter: Babs Vanelli  
On Behalf Of:  
Committee: House Committee On Climate, Energy, and Environment  
Measure, Appointment or Topic: HB3336

Babs Vanelli here, 76 year old life long Portland resident. Currently living in NE Portland, Zip 97232

I am writing to express my support of House Bill 3336.

This Bill will require utilities to include grid enhancing technologies in their planning to allow existing transmission lines to function more efficiently. These technologies are less expensive and can be installed in a shorter period of time than new lines.

Thank you to Rep. Gamba, Chief Sponsor of HB 3336, along with Reps. Helm, Walters and Wright and Senators Golden and Sollman.
