

Submitter: Babs Vanelli
On Behalf Of:
Committee: House Committee On Climate, Energy, and Environment
Measure, Appointment or Topic: HB3628

Babs Vanelli here, 76 year old life long Portland Resident. Currently residing in NE Portland.

I am writing today in support of House Bill 3628.

This Bill would establish an Oregon Electric Transmission Authority.

Such an Authority would streamline siting of new power facilities, expansion of transmission infrastructure, and issue revenue bonds.

Thank you to Rep. Gamba, along with Senators Pham, Golden, and Sollman, and Reps. Helm and Wright for sponsoring HB 3628.
