

Submitter: Neil Christensen

On Behalf Of:

Committee: House Committee On Climate, Energy, and  
Environment

Measure, Appointment or  
Topic: HB2410

Nuclear power is still one of the cleanest sources of energy with zero carbon emissions. Many of our nuclear power plants were designed without the advantages of current technology. If we hope to break out dependency on fossil fuels, we need to combine our now advanced technology with clean, efficient nuclear power.
