

Submitter: Cameron Dockstader

On Behalf Of:

Committee: House Committee On Climate, Energy, and
Environment

Measure, Appointment or
Topic: HB2410

I'm an Air Force veteran who lives in Columbia County and works in Washington County. The economic, environmental, and industrial benefit of nuclear power is undeniable. Any place in Oregon that makes nuclear power possible is a step toward sustainably sourced energy and an improved economy. I support HB 2410.
