On Behalf Of:

Committee: House Committee On Behavioral Health and Health Care

Measure, Appointment or Topic: HB3439

I offer my wholehearted support for HB3439. It is right to recognize that the services of naturopathic doctors should be compensated equally with their peers. This seems an obvious correction to some sort of loop hole in old language or policy. I also hope that this quickly and easily expands beyond "Public Employees' Benefit Board and the Oregon Educators Benefit Board." This should be the policy of all insurance companies.

Please support naturopathic physicians being paid fairly and equitably with their peers for the same work.
