

Submitter: Courtney Snyder

On Behalf Of:

Committee: Senate Committee On Judiciary

Measure, Appointment or Topic: SB939

As an employee of a nonprofit organization, I've seen how the Oregon state government and local levels of government all contract with non-profit organizations to carry out work that the government has decided is useful. I believe that nonprofit employees working for the benefit of Oregon residents are essentially public service workers as much as the direct employees of the government, and they deserve to have safety protections provided by the government.
