On Behalf Of:

Committee: House Committee On Emergency Management, General
Government, and Veterans

Measure, Appointment or Topic: HB2949

I support this bill because oil and liquid fuel terminals are dangerous and pose massive risks to our environment and our safety. The CEI hub is an issue of importance for all Oregonians, as its where 90% of the liquid fuel in our state is stored, yet the area is on a liquefaction zone, at risk of causing a massive fuel spill in the event of an earthquake.
