

Submitter: David Wall  
On Behalf Of: Mr Oregon OPPOSES SB 3003  
Committee: House Committee On Early Childhood and Human Services  
Measure, Appointment or Topic: HB3003

I OPPOSE [SB 3003].

What is this report all about?

If the information is for the betterment of the children I have 'No' problem.

If [SB 3003] is just busy work for the sake of 'busy work' the children are not be served.

[SB 3003] is going to require allocation of funds to carry out the information gathering, construction of the report; revision by management, final Report submitted and database management of all of the information.

[SB 3003] is going to cost a lot of money.

Moreover, there was not even a 'Hint' as to any Funding for [SB 3003] and what source(s) the 'Funding' will come from.

The amount of money to carry out [SB 3003] should be used to provide better care for the children.

The events children suffer before they are placed in Foster Care are traumatic to their well-being.

Children should be given more care.

The race of the children is not the issue here.

The issue is care for the children.

David S. Wall

Mr. Oregon Concurs and says, "[SB 3003] is a College and or University student of Social Work Master's Thesis. [SB 3003] should not be considered a paid gig. The information gleaned can open up more discussion and possible ingenious ways to better serve the needs of displaced children without costing the taxpayers any money."
