

Submitter: Robert Egner
On Behalf Of: Rural Tax Paying Voter
Committee: Senate Committee On Housing and Development
Measure, Appointment or Topic: SB878

I'm in support of this bill because with inflation and the cost of housing so incredibly high it could relieve the burden on families if there was an option to build a single structure, tiny home, manufactured home etc onto an already owned property.

It also plays into the request of our Governor that put out a very aggressive building plan for homes that she is currently asking for more funding to meet.

This allows people to build and won't require as much tax increase.
