

Submitter: Kelly Owens
On Behalf Of:
Committee: House Committee On Behavioral Health and Health Care
Measure, Appointment or Topic: HB3439

As a naturopathic physician of 20 years in this lovely state, I urge you to pass HB3439 out of the House Committee On Behavioral Health and Health Care. With 1200 Licensed Naturopathic Physicians serving over 100,000 Oregonians each year, HB3439 will help improve delivery of primary care services in our state.

HB3439 requires that insurance companies pay naturopathic doctors (ND) fairly and on par with what other primary care providers are paid for providing the same services. Currently, NDs are reimbursed on average at half the rate of PAs, NPs, DOs and MDs. NDs are well-regulated and licensed as primary care providers. Thousands of Oregonians seek out the safe, effective and integrative care that NDs provide.

Every year, NDs are financially forced to either lay off staff and close their clinics or to move to a cash model, excluding those who are not affluent. I have recently made the difficult decision to drop my contract with two large insurers because I was being reimbursed \$47 for a 45 minute office visit for patients with chronic disease. That is untenable, and means that patients for whom I have been caring for more than a decade were forced to choose to find a new primary care physician or pay out of pocket for services. This is diminishing Oregonians' access to safe and effective naturopathic care and we as a state should not be complicit in this. Oregon is currently experiencing a primary care provider shortage which will only be exacerbated if HB3439 does not advance.

HB3439 has a minuscule fiscal impact of 3 million dollars embedded in the OHA biennial budget, yet the profound positive impact on patient care for Oregonians far outweighs the cost. This allocation would go toward primary care, which has been a priority of this legislature. HB3439 will not only increase patients' ability to choose their doctors, but will also support the hundreds of small businesses across the state that provide naturopathic care.

Please vote "YES" on HB3439 at its upcoming hearing.
