

Submitter: Geroge White
On Behalf Of:
Committee: Senate Committee On Natural Resources and
Wildfire
Measure, Appointment or Topic: SB777

I am writing in support of SB 777.

Compensation for loss or injury to livestock must be based on fair market value and other factors. Additionally, as outlined in section (C) (d) (A &B multipliers must be applied to compensation rates. These multipliers will help diminish the several hidden costs associated with wolf attacks, such as, but not limited to: weight loss on calves and yearlings, lost pregnancies, destroyed fencing, pneumonia, and open or late calving cows and heifers. These hidden losses are catastrophic to livestock operations.

I strongly urge your support and the passing of SB 777.

George (Randy) White
