

Submitter: Emerick Craig

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure, Appointment or Topic: HB2038

I am opposed to this bill. The bill as written seems biased toward ultimate approval of nuclear energy facilities being constructed in Oregon (and elsewhere) as the study is directed to discover the advantages of nuclear facilities and energy. The voters of Oregon have previously banned construction of nuclear facilities in Oregon in consideration of the safety of these units.

Without rehashing information which has already been submitted, I support the testimony submitted by Alan R.P. Journet, Ph.D. on 2/22/25 on behalf of SOCAN.

Thanks,
