Measure, Appointment or Topic: HB2038

We voted in 1980 to have NO nuclear power in Oregon. Let us keep it that way. Nuclear Power is now 5 to 10 times the cost of solar and wind. Plus there are all the dangers of disposing of the nuclear waste which can last millions of years. There is enough cancer and pollution. We do not need any more. Renewable yes Nuclear NO.

We do not need any more research. We know how deadly nuclear power is!! Fukushima , Chernobyl , Three Mile Island  
What part of earth rape, do you not understand?

atomic power, no thank you!  
Bicycle power, yes please.
