On Behalf Of:

Committee: House Committee On Agriculture, Land Use, Natural
Resources, and Water

Measure, Appointment or Topic: HB2965

Hello there,

I support HB 2965-3 because I, as well as my friends, want to protect Oregon's coastal waters from the harms of industrial aquaculture. As you may already know, it has been scientifically proven that net pen aquaculture of finfish causes environmental and socioeconomic harms. Not to mention, the increase of loss of life amongst these fish, who are living beings as well as the unintended fish that will suffer consequences both from the equipment and disease amongst aquatic animals as a result. I want my state of Oregon to prevent an influx of such operations now that they are banned. Please help us.
