I vehemently oppose Oregon's legislature's attempts to take money from all Oregonian's to promote one group of citizens or race over another.

People struggling today to earn money to support their families should not have to pay for things that happened to a group of people hundreds of years ago.

Why are you concerned about sins have the past that cannot be rectified, but you allow the immense levels of human and sex trafficking. That's something you could work to resolve but now you're insane DEI policies and initiatives are making life extremely hard for the rest of us.

Stop wasting our money on this garbage.
