

Submitter: Judy Blais

On Behalf Of:

Committee: Senate Committee On Natural Resources and
Wildfire

Measure, Appointment or
Topic: SB777

A naturally predatory animal, the wolf has learned over generations that it no longer has to fear humans.

Because...

The state has provided the wolf with a protected status that is causing serious financial losses for Oregon ranchers and farmers... especially during calving season. To mitigate these losses, the state must fairly compensate these hard-working Oregonians for the ongoing slaughter of their livestock.
