Dear Chair and Senate Committee On Health Care

I am a 40 year resident in southern Oregon with long involvement with our health care and housing programs in the Rogue Valley. From their inception I have been a member of our two coordinated care organization's community advisory committees ( All Care and Jackson Care Connect as well as organization such as Oregon Action and Health Care for All Oregon. I have seen the solid growth of OHP and health care reform over some time. With this background I strongly urge you to support SB528. In order to insure that the progress for health care across our state is being received equitably by all our neighbors and communities the Regional Health Equity Coalitions have proven to be an essential component of health care for all. We have seen this in our Rouge Valley. And SB 528 will increase this essential work into more communities across our state. I strong urge your support for this important bill.
