On Behalf Of: myself
Committee: House Committee On Agriculture, Land Use, Natural Resources, and Water
Measure, Appointment or Topic: HB2965

Thank you for your time and care on this sensitive and urgent issue. Please support HB 2965-5. As an Oregonian, it's crucial that we protect Oregon's coastal waters from the harms of industrial aquaculture. BIG TIME! It has been scientifically proven that net pen aquaculture of finfish causes environmental and socioeconomic harms, and we want Oregon to prevent an influx of such operations now that they are banned or seriously restricted on the rest of the West Coast. We don't need fish pumped full of harmful chemicals that not only are not good for the fish or their environment, but for humans or other animals (we are a part of the animal kingdom) to eat as well! It's all around bad!
