

Submitter: Gabriel DeSimone

On Behalf Of:

Committee: House Committee On Behavioral Health and Health Care

Measure, Appointment or Topic: HB3439

pay them what they are worth.

what they are worth is at the very least what DO/MD are paid.

they do the same testing and are held to the same standards.

the fault is on the society in which we all are apart of, there isn't money in actually healing and "fixing" peoples ailments.

set a precedent and support those who can help people before they get to the point of needing major medical intervention.
