

Submitter: Linda Rajnus
On Behalf Of:
Committee: Senate Committee On Natural Resources and
Wildfire
Measure, Appointment or Topic: SB777

We need better compensation for the damage wolves cause to our livestock and any animal that is used to ward off attacks from wolves. We need better protection from wolves that no longer fear man. These wolves are forced upon us with little concern for livestock or our business. It is unacceptable that we have to endure their predation and have to standby and watch our animals being killed and terrorized by wolves. They must be managed far better.
