

Submitter: Judi Ielmorini
On Behalf Of: SB 777
Committee: Senate Committee On Natural Resources and
Wildfire
Measure, Appointment or Topic: SB777

I am writing today to voice my support for SB 777. Many small ranchers are trying to survive harsh weather conditions while calving, lambing, foaling, etc. There will always be predators that need to eat. But, there is no way to protect animals from predators that run in packs as wolves do. Livestock owners have had to implement guardian dogs to try and protect the herd. Wolves in a pack will kill the guardian dogs that work so hard to brave the elements and protect their family. We really need compensation and we support SB 777. Please pass this bill!
