Measure, Appointment or Topic: HB2965

Please support HB 2965-5. As an Oregonian, it's important to me that we protect Oregon's coastal waters from the harms of industrial aquaculture. It has been scientifically proven that net pen aquaculture of fin fish causes environmental and socioeconomic harms, and we want Oregon to prevent an influx of such operations now that they are banned or seriously restricted on the rest of the West Coast. Please do not believe those who would profit from this harmful operation. The health of our coastline is priceless.
