On Behalf Of:

Committee: House Committee On Behavioral Health and Health Care

Measure, Appointment or Topic: HB3439

Naturopathic Doctors need to be paid the same as an Medical Doctor as primary care. NDs spend much more time with patients to fully understand the concerns of their patient. ND does the same educational training as an MD plus plant and natural healing modalities. Nds deserve to be paid the same as an MD without being forced to suggest, prescribe or push pharmaceuticals or see a certain number of patients in a timeline.
