On Behalf Of:

Committee: House Committee On Agriculture, Land Use, Natural  
Resources, and Water

Measure, Appointment or Topic: HB2965

Regarding use of Oregon's coastal waters for industrial aquaculture, I am strongly requesting that no aquaculture is allowed. We need to protect North America's west coast waters from harms of "net pen aquaculture of finfish". The potential socioeconomic harms, as well as environmental destruction and harms, must be considered. We must stand firm on protecting this important natural resource, the Pacific Ocean water and its natural habitat for native species.
