

Submitter: Sarah Silkie

On Behalf Of:

Committee: House Committee On Emergency Management, General  
Government, and Veterans

Measure, Appointment or Topic: HB2949

As a civil engineer and resident of Portland, I urge you to support HB 2949 because it is a practical, market-based next step to solve a pending disaster of overwhelming magnitude. Risk bonds have the potential to provide the financial incentives for owners and operators of bulk fuel terminals to encourage them to invest in safer alternatives and take basic steps to protect our communities.
