

Submitter: DIANA BOOM

On Behalf Of:

Committee: Senate Committee On Natural Resources and
Wildfire

Measure, Appointment or
Topic: SB427

SB 427 will protect Oregon's streams and the public benefits they provide by establishing a new "no diminishment of streamflow" standard in the state's process for reviewing applications for water right changes.

This is a narrow fix to a growing statewide problem affecting streamflows that are needed for fish, wildlife, water quality, recreation, scenic, and cultural values. Please approve this bill.
