

Submitter: Peter Brewer

On Behalf Of:

Committee: Senate Committee On Natural Resources and
Wildfire

Measure, Appointment or
Topic: SB427

We finally have a chance to close a dangerous loophole that's hurting our salmon streams. We need to modify the law to include strong consideration of any changes to existing water rights with to prevent environmental harm. The environment is a key part of our collective lives and we need to very strongly consider impacts to the environment, especially to water sources. Thank you.
