

Submitter: Brett Baylor

On Behalf Of:

Committee: House Committee On Emergency Management, General
Government, and Veterans

Measure, Appointment or Topic: HB3450

I write to you in strong support of HB 3450. The critical energy infrastructure hub is a highly vulnerable facility upon which much of the commerce and emergency management of our state depends. It's only common sense that we develop a long-term strategy for management of the potential natural disasters along this critical bank of the Willamette River. In addition, the risk and costs of such events need to be shared by those most responsible for the installations and facilities involved, which have historically lacked strong oversight and accountability and transparency. I urge you to pass this bill.
