Committee: House Committee On Agriculture, Land Use, Natural
Resources, and Water

Measure, Appointment or Topic: HB3103

Oregon Forests are a long-time lively hood for the state. The waste that has created these wildfires is absolutely gross. We have had storms that caused timber to fall on the forest floor and not until recently has it been this kind of fires. I believe the cause is all the waste not cleaning up out timber lands. They have been cleaned for years, and no huge fires. So something has to be done to clean up and open up forestry for our working people in the timber industry. Quit shipping our timber overseas. Thank you.

I was born and raised in this state raised by a father who worked and provided a comfortable home for his family. This mess now days is just embarrassing. Total mismanaged. Clean it up Oregon.
