

Submitter: Allen Adkins
On Behalf Of: Oregon
Committee: House Committee On Agriculture, Land Use, Natural
Resources, and Water
Measure, Appointment or Topic: HB3103

HB 3103 locks in what is An accurate harvest level so that operators can do job, make long term projection and plan their harvest with certainty. The industry has made great sacrifices to appease those in power over the last few years. Our harvest levels a few years ago were well below what it takes for sustainability. But we need confidence in what those harvest levels will be moving forward.
